

Discover OGIM Partnership

OGIM was founded by engineers and academics who have the best industrial and academic references

We collaborate with tunisian and world famous institutions specialized in oil and gas

The scientific committee of **OGIM** controls the quality of our trainings

OGIM training takes place in very good conditions at **Cyber-Parc of Monastir** and our **Training Center rue Ibn El Jaafar (Skanes - Monastir)**. Both are located 100m from «**Faculté des Sciences**» and **Engineers School (ENIM)**.

You can be our partner for :

Long trainings for your engineers and technicians (20 weeks)

The recruitment of engineers and technicians within our trainees

Short targeted trainings for your specific needs within our programs

An exclusivity agreement on a specific training program

The attribution of internships to our trainees, company visits and dissertation topics

The contribution to our programs, teaching and our evaluation juries

OGIM is a private Training Institute specialized in Oil and Gas

OGIM - Cyber-Parc - Av. Ibn El Jazzar
5000 Skanès - Monastir - Tunisie
Tel : (216) 73 908 966 - Mobile : (216) 25 880 990
Fax : (216) 73 908 765
Email : contact@ogim-formations.com
Web site : www.ogim-formations.com

Our next long training session :

November 2009 to May 2010

Petroleum Engineer (25 weeks, ~550h)

- Geology
- Geophysics
- Rock and Fluid Properties
- P.V.T.
- Flows in Porous Medias
- Well Test Analysis
- Logging
- Geostatistics
- Drive Mechanisms
- Reservoir Modeling and Simulation
- Drilling
- Completion
- Production Technology
- Oil and Gas Treatment
- Surface Production Equipment
- Instrumentation & Process Control
- Corrosion
- H.S.E.
- Economics & Management
- Geologic Visit & Petroleum Field Visit

Surface Production Technician (23 weeks, ~450h)

- Fundamentals of Physics & Chemistry
- Basics of Geosciences
- Basics of Reservoir Engineering (Rock and Fluid Properties - PVT - Logging - Drive Mechanisms)
- Drilling
- Completion
- Downhole Production and Workover
- Surface Operations and Equipment
- Instrumentation and process control
- Rotating Machinery - Electrical motors
- Corrosion
- H.S.E.
- Management
- Petroleum Field Visit

► English Language Training

- Technicians : 135 hours
- Engineers : Level 1 : 135 hours
Level 2 : 180 hours

► Dates

November 2, 2009 to December 11, 2009 (6 weeks) :
English Language Training

December 14, 2009 to May 15, 2010 (23 weeks) :
Technicians long course

December 14, 2009 to May 30, 2010 (25 weeks) :
Engineers long course

► Required technical skills

- Technicians bac+2 for Production Technicians
- Engineers bac+5 for Petroleum Engineers (*)

► Tuition fees (without VAT)

- Petroleum Engineer : 9200 DT **
- Technicians : 8100 DT *
- English Language Training : 4,5 DT/hour

** For non sponsored candidates, we offer reduction depending on their academic records

► Number of trainees

- Petroleum Engineer Training : ~16
- Surface Production Technician Training : ~16

(*) Some places for bac + 4 may be selected by the scientific committee.
